Just look for and choose the song you want to hear from the folder name and song name lists. The Android Open Accessory Protocol (AOA2) is supported so absolutely no preparation or set-up is necessary ¢ÃÂÂ just plug it in and it¢ÃÂÂs ready to play audio files stored on your Android device in what¢ÃÂÂs called "AUDIO MODE". Use the 13-Band Equalizer to manually adjust the sound to your taste. Adjusts the viewing angle for higher contrast and better visibility. For example, K2 will expand the digital data of the audio CD recorded at 44.1kHz/16 bit to 48 kHz/24 bit, and recreate the high-frequency range above 20kHz that is cut during the CD formatting. *JVC Music Play app Ã ÂFor more information, visit www.jvc.net/car/app/jmp/ You can connect two phones full time via Bluetooth, with secure and simple pairing. It boosts frequencies in the music that are affected by road noise. The clear resistive touch panel with high transparency and high luminance provides bright images with vivid colors. By selecting the speaker type and the distance to the center of the listening position, the receiver will automatically adjust the timing of the sound output from each of the speakers so that the sound from each of the speakers will arrive exactly at the same time to the listening position. Rapidly charge your smartphone using the USB port, with up to a maximum of 1.5A. Cancels time distortion to create clearer sound during the playback of compressed audio files. You can listen to over 100 Channels of music, sports, and entertainment. Listen to Pandora, iHeartRadio, and Spotify from your smartphone with smooth control on the receiver via USB or Bluetooth connection for iPhone, and via Bluetooth for Android devices. In addition to repeat and random playback of music files, you can also easily search for songs using the browsing function. Or, by installing the free JVC Music Play app* available on Google Play, you¢ÃÂÂll be able to access MODE" for additional features, including Folder Up & Down, and Search Artist/Album/Song. Simply connect your iPhone or Android device* via USB and the Auto Bluetooth coupling feature will work to complete the coupling. Improved sound quality thanks to HD Voice contributes to a higher level of accuracy of voice recognition. Calls to both phones can be received from a key push on the receiver. Volume Link EQ increases the specific frequencies in the audio signal to compensate for the impact of road noise. No complicated manual procedure to worry about. The remote control (RM-RK258) is available in option. iPod/iPhone Music Playback 3-Pre-outs/4.0V Rear View Camera Ready Steering Remote Ready Simply connect your Android smartphone or tablet to the receiver via USB and enjoy a totally "plug and play" music playback solution. Practically manipulate the height of the speakers by adjusting the sound frequencies. Just select the size of the vehicle, and the receiver automatically adjusts the sound effectively. K2 is an original JVC technology that reproduces the original master sound by expanding the frequency of bits and frequency range. Ready for SiriusXM Radio. Space Enhancement is a virtual surround technology that uses 2 speakers. Speakers.
